- 1. a nurse;
- 2. a police officer;
- 3. a teacher.
- Give detailed information to support your answer and explain why.
- 下列哪項職業應該獲得更高的薪水？
- 1. 護士；
- 2. 警察；
- 3. 教師。
- 說出詳細的資訊來支持你的答案，並解釋為什麼。

高分範例：

In my opinion, a police officer should be paid the highest salary among all three because they put their life at risk in order to ensure the safety of the citizens. For example, my uncle is a police officer. He spends most of his time chasing down really dangerous people such as drug dealers, gangsters, and organized crime groups. There were a few times when he got involved in rounds of gunfire. Although he's been safe, his family is always so worried about him whenever he's on duty. They can never expect certainty in my uncle's personal safety, which is something really stressful for both my uncle and people around him. Therefore, I think a police officer should be paid the highest salary.

就我的想法，在這三項職業中，警察應該要領最高的薪水，因為他們為了確保國民的安全冒著生命風險。舉例來說，我叔叔是個警察。他花了大多數的時間追捕很危險的人，像是毒販、幫派份子以及犯罪組織。有幾度他身陷幾度交火中。雖然他一直安然無恙，但他每次出任務，他家人總是很擔心他。他們永遠無法預期我叔叔一定會保有人身安全，這對我叔叔或他身邊的來說都是很有壓力的。因此，我想警察應該要得到最高的薪水。

- Do you agree or disagree that older doctors are more knowledgeable than young doctors?
- 你同不同意？老醫師比年輕醫師擁有更多知識。

高分範例：

In my opinion, I think that older doctors are more knowledgeable than younger ones because real medical knowledge is accumulated by practicing. For example, my cousin is a family doctor. He often tells me that the prerequisite for a good doctor is neither high IQ nor high grades. What really matters is the knowledge acquired through constant research and observation which requires years of patience and perseverance to achieve. It is no exaggeration to say that only through decades of practicing will a doctor successfully bridge the gap between theory and practice. In fact, some young doctors may be brilliant but they lack the hands-on clinical experience characteristic of a good doctor. That's why I believe older doctors are more knowledgeable than young doctors.

就我的想法，我認為老醫師比年輕醫師擁有更多知識，因為真正的醫學知識是需要實踐來累積的。舉例來說，我表哥是個家庭醫師。他常常告訴我好醫師的先決條件不是高智商也不是高分成績。真正重要的是透過不斷研究與觀察而習得的知識，這需要多年的耐心與堅持才能達成。只有數十年的行醫，醫生才能成功結合理論與實踐是毫不誇大的說法。事實

上，有些年輕醫生很優秀，但缺乏好醫生必備的實際臨床經驗。這是為什麼我認為老醫師比年輕醫師擁有更多知識。
